Dr Chetan Shah
Chairman & Managing Director

Solex Energy

P R O F I L E

Dr Chetan Shah, Chairman and Managing Director of **Solex Energy Limited**, is a globally attuned entrepreneur whose distinguished career bridges the realms of technology, innovation, and sustainable development. A scion of the illustrious Nemji family celebrating over a century of business legacy Dr Shah has successfully founded and scaled multiple ventures, including Nemji Informatique and V Serve Consultants Pvt. Ltd., demonstrating his rare prowess in leading both IT services and renewable energy enterprises with equal finesse.

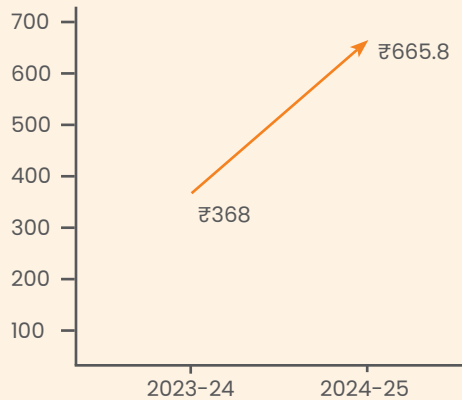

Under his visionary and nurturing leadership, Solex Energy has transformed into a purpose-driven, technology-forward solar solutions powerhouse, recognized for its engineering excellence, innovation-first culture, and deeply human-centered ethos. Dr Shah champions a bold model of inclusive industrialization where over **70% of Solex's workforce hails from tribal and indigenous communities**. Through structured training, hands-on mentoring, and the integration of local talent into high-tech manufacturing environments, he has fostered a workplace where dignity, skill, and aspiration converge to drive both social upliftment and industrial excellence.

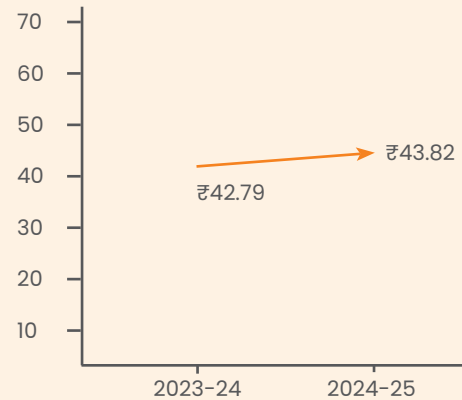

70%

**of Solex's
workforce hails
from tribal and
indigenous
communities.**

Since assuming the helm in 2019, Dr Shah has architected a phase of exponential growth. Revenues soared from **₹368 crore in FY 2023 to ₹665.8 crore in FY 2024–25 an extraordinary 81% year-on-year increase. Profit after tax skyrocketed by 390% to ₹42.79 crore, and earnings per share climbed to ₹43.82**, ushering in a new era of operational excellence and stakeholder value creation.

REVENUE GROWTH IN CRORE

PROFIT AFTER TAX IN CRORE

At the heart of this ascent is Dr Shah's relentless focus on innovation and execution. Under his guidance, Solex has embraced the forefront of **Industry 4.0** integrating real-time analytics, digital twin simulations, machine learning-based process optimization, and autonomous robotics to create intelligent, adaptive manufacturing environments. These advancements are fortified by **Quality 4.0** protocols, which utilize predictive analytics, AI-driven root cause analysis, and cloud-based quality management systems to deliver continuous improvements in product performance and compliance.

These initiatives have delivered measurable results: a 30% boost in productivity, a 40% reduction in product defects, and a 25% optimization in supply chain efficiency. Solex also earned the prestigious **MCS 005 certification** under the **BSI Kitemark**, becoming the first Indian PV module manufacturer to receive this internationally respected mark of quality. The company's modules are also listed on the **MNRE's (Ministry of New and Renewable Energy) Authorized List of Module Manufacturers (ALMM)** a recognition that underscores Solex's adherence to the highest standards of performance, safety, and reliability as defined by India's apex renewable energy body.

Yet Dr Shah's influence extends beyond the boardroom. He is deeply committed to building high-performance, people-first organizations. Under his stewardship, Solex has been certified as a **"Great Place to Work"** and featured among the **"ET Progressive Places to Work"**, reflecting a culture rooted in inclusivity, growth, and individual empowerment. He takes pride in mentoring internal talent, nurturing future leaders, and creating an environment where individuals are inspired to surpass their potential.

A firm believer in values-based leadership, Dr Shah draws lifelong inspiration from the ethos and code of conduct of the **Tata Group** upholding integrity, excellence, and societal responsibility at every step. His leadership style blends the wisdom of experience with the vibrancy of youth. As a former **national-level athlete and a passionate fitness enthusiast**, he brings the discipline, stamina, and drive of sports into his professional life working with the zeal of a young changemaker and the wisdom of a seasoned leader.

Recognizing the need to bridge generational gaps in traditional institutions, Dr Shah launched the Gen-Next initiative at the **Southern Gujarat Chamber of Commerce and Industry (SGCCI)** to attract young minds to a largely senior-led body. His ability to connect with the aspirations of India's youth has helped rejuvenate SGCCI's membership base and inject fresh energy into its vision.

Earlier in his career, Dr Shah made history as the **youngest-ever President** of **SGCCI**, playing an instrumental role in Surat's inclusion in the **Rockefeller Foundation's ACCCRN** climate resilience initiative. As President of **SITA (South Gujarat Information Technologists Association)**, he was a pioneer in building early IT awareness in the region during the 2000s, accelerating digital transformation well before it became mainstream.

A respected thought leader and policy influencer, Dr Shah actively engages with leading national and international forums to shape the future of clean energy. He is a core member of the **All India Solar Industry Association (AISIA)** and serves on key renewable energy committees across **MNRE, FICCI, ASSOCHAM, and CII**. Through these platforms, he collaborates with policymakers, industry visionaries, and innovators to advance India's domestic manufacturing, clean energy transition, and sustainable industrial development.

Beyond business, Dr Shah is a man of many passions a global traveler, and soulful singer with a fondness for retro melodies. Known for his infectious energy, grounded demeanor, and unshakable optimism, he believes in living life to its fullest and leading with both heart and mind.

In every endeavor economic, technological, or social Dr Chetan Shah exemplifies a rare leadership philosophy: **bold in ambition, grounded in purpose, and rich in empathy**. His legacy is not merely measured in megawatts or market share, but in minds inspired, systems transformed, and a nation steadily advancing toward an equitable and energy-secure future.

Dr Chetan Shah has recently been awarded an Honorary Doctorate in Business Management from Kennedy International University in France. This esteemed recognition highlights his remarkable contributions to the renewable energy sector.
