Press Release

Solex Energy and Subsidiary Solex Green Energy Secure ₹194.14 Crore Combined Work Orders for TOPCon Solar PV Modules

Surat, October 6, 2026: Solex Energy Limited (NSE: SOLEX | BSE: 544862) and its wholly owned subsidiary, **Solex Green Energy Private Limited**, have secured two work orders aggregating to **₹194.14 crore, inclusive of applicable taxes**, for the supply of advanced **TOPCon solar PV modules** to domestic entities operating in the power and electricity sector.

Solex Green Energy Private Limited, a wholly owned subsidiary of Solex Energy Limited, has secured a work order valued at **₹180.98 crore (Rupees One Hundred Eighty Crore and Ninety Eight Lakh Only),** inclusive of applicable taxes, for the supply of TOPCon Bifacial Glass to Glass (G2G) Solar PV Modules.

Separately, **Solex Energy Limited** has secured a work order valued at **₹13.16 crore (Rupees Thirteen Crore and Sixteen Lakh Only),** inclusive of applicable taxes, for the supply of **TOPCon Bifacial Glass to Glass Solar PV Modules.**

Together, the two orders reinforce the growing business momentum across the Solex Group and strengthen its position as a reliable supplier of high performance solar PV modules for India's expanding renewable energy ecosystem. The orders also add to the Group's order pipeline as Solex continues to scale its manufacturing capabilities and expand its presence across the solar value chain.

Solex manufactures its solar modules at its state of the art facilities on the outskirts of Surat, Gujarat, with a focus on advanced manufacturing processes, quality systems and product reliability. Its solar modules are certified to global quality and performance standards, including **IEC, CE, UL, CEC, BIS, EPD and Kiwa PVEL 2026**, and are listed under the **Ministry of New and Renewable Energy's Approved List of Models and Manufacturers (ALMM).** These certifications and listings reinforce the Company's focus on maintaining stringent quality, safety and performance standards across its product portfolio.

With close to **three decades of presence in the solar sector**, Solex has developed partnerships across utility, commercial, industrial and public sector installations in India and international markets. The Company continues to strengthen its manufacturing capabilities, quality systems and product portfolio to serve the evolving requirements of both domestic and international customers.

Under its **Vision 2030 roadmap**, Solex is focused on expanding manufacturing scale, strengthening quality and technology capabilities, enhancing export readiness and developing a skilled sector workforce. As the Company and its subsidiary continue to expand their presence across the renewable energy value chain, they remain focused on delivering reliable, high efficiency solar solutions and supporting India's transition towards a cleaner energy future, guided by the philosophy "Putting the Soul in Solar Since 1995."

About Solex Energy Limited

Headquartered in Surat, Gujarat, Solex Energy Limited has been a pioneer in India's solar manufacturing journey, putting soul in solar since 1995. With nearly three decades of expertise, Solex is among India's most trusted solar module manufacturers and one of the first Indian solar brands listed on the NSE: Solex and BSE: (544862).

Solex operates a state-of-the-art, Industry 4.0 enabled, fully automated manufacturing facility at Tadkeshwar, Gujarat, with a production capacity of 4 GW for photovoltaic modules. Leveraging advanced automation, real-time quality controls, and data-driven manufacturing processes, the company delivers high-efficiency, high-reliability PV modules. Solex holds globally recognised certifications, exports to multiple countries, and serves as a preferred OEM partner to internationally recognised brands.

Beyond manufacturing, Solex provides comprehensive EPC solutions across utility-scale, commercial, industrial, and institutional segments. Built on the core values of consistency, quality, and commitment, goes beyond being a solar manufacturer to become a long-term energy partner, committed to accelerating the transition to clean, reliable, and sustainable energy.
