Solex Energy Secures ₹75.96 Crore Work Order for 620 Wp N-Type TOPCon Solar PV Modules

Surat, October, 5th, 2026: **Solex Energy Limited**, one of India's leading solar module manufacturers and renewable energy solution providers **NSE: SOLEX and BSE: 544862**, has announced that it has secured a work order worth **₹75.96 Crores** from domestic entities engaged in the power/electricity sector.

The order comprises the supply of **N-Type TOPCon G12R Glass-to-Glass Solar PV Modules** rated at **620 Wp,** with a total contract value of **₹75.96 crore**, inclusive of all applicable duties and taxes. The order further strengthens Solex Energy's position as a trusted manufacturing partner for large scale renewable energy projects and reflects the growing confidence of energy developers in the company's advanced manufacturing capabilities and high performance photovoltaic technologies.

The **620 Wp N-Type TOPCon G12R Glass-to-Glass modules** are designed to deliver high power output, enhanced durability and reliable long term performance, making them well suited for utility scale and other demanding solar applications. The order reinforces Solex's focus on expanding the adoption of high efficiency solar technologies and supporting the growing requirements of India's renewable energy ecosystem.

Solex manufactures its solar modules at its state-of-the-art facilities on the outskirts of Surat, Gujarat. The company's products are certified to global quality and performance standards, including **IEC, CE, UL, CEC, BIS, EPD and Kiwa PVEL 2026**, and are listed under the **Ministry of New and Renewable Energy's Approved List of Models and Manufacturers (ALMM)**. The company continues to strengthen its manufacturing capabilities, quality systems and product portfolio to serve customers across domestic and international markets.

With close to three decades of presence in the solar sector, Solex has built partnerships across utility, commercial, industrial and public sector installations in India and international markets. Under its **Vision 2030 roadmap**, the company is focused on strengthening manufacturing scale, quality systems, export capabilities and sector workforce development, including initiatives to skill young talent from tribal communities.

As Solex continues to expand its presence across the renewable energy value chain, the company remains committed to advancing high-quality solar manufacturing and contributing to India's clean energy transition, guided by its philosophy of **"Putting the Soul in Solar Since 1995."**

About Solex Energy Limited

Headquartered in Surat, Gujarat, Solex Energy Limited has been a pioneer in India's solar manufacturing journey, putting soul in solar since 1995. With nearly three decades of expertise, Solex is among India's most trusted solar module manufacturers and one of the first Indian solar brands listed on the **NSE (SOLEX)** and the **BSE (544862).**

Solex operates a state-of-the-art, Industry 4.0 enabled, fully automated manufacturing facility at Tadkeshwar, Gujarat, with a production capacity of 4 GW for photovoltaic modules. Leveraging advanced automation, real-time quality controls, and data-driven manufacturing processes, the company delivers high-efficiency, high-reliability PV

modules. Solex holds globally recognised certifications, exports to multiple countries, and serves as a preferred OEM partner to internationally recognised brands.

Beyond manufacturing, Solex provides comprehensive EPC solutions across utility-scale, commercial, industrial, and institutional segments. Built on the core values of consistency, quality, and commitment, goes beyond being a solar manufacturer to become a long-term energy partner, committed to accelerating the transition to clean, reliable, and sustainable energy.
